Hunterdon Area Energy Cooperative (HAEC)
Program Announcement

OCTOBER 2026

Dear Resident,

The Hunterdon Area Energy Cooperative (HAEC) has been saving residents on their electric bills since 2018. Our savings to date totals over $5 million when compared to JCP&L's Basic Generation Service rates. Based on this success, the HAEC is pleased to announce that the GEA Program's contract Constellation NewEnergy, Inc., is being extended for another 12 months, at the rate of $0.15857 per kWh (15.857 cents/kWh) through November 30, 2027. This program is a form of group electricity purchasing in which the HAEC chooses an electricity supplier for the entire community. In this program, JCP&L will continue to distribute your electricity and it will remain your utility, but you will buy your electricity supply through the HAEC. The new rate, which is lower than what JCP&L is currently offering, takes effect with your December 2026 meter read and will continue through November 30, 2027. You also have the option of having 100% of your electricity derived from renewable sources (like solar and wind).

Participating Municipalities in the HAEC include:
Borough of Califon (Lead Agency for HAEC), Bethlehem Township, Town of Clinton, Delaware Township, Flemington Borough, Frenchtown Borough, High Bridge Borough, Kingwood Township, City of Lambertville, Mendham Township, Peapack and Gladstone Borough, Stockton Borough, and Washington Township (Morris County)

Program Options & Pricing: You have three choices: The "Standard" HAEC Program, the "Green" HAEC Program, and not participating in the HAEC and having JCP&L "Basic Generation".
